

Other Web Platforms

Our expertise and infrastructure deployed allow us to guarantee that we can install for you any online services platform that your business requires. It would be impossible to list all the different applications we could install, configure and host for you, but the most common examples are:

- Post a blog, a forum, a digital magazine or web platform with your own domain name. Provide an e-learning platform to publish their own courses. See example.
- Enjoy a private space in the cloud where you post your files so that customers or suppliers can access them in a comfortable but secure.
- Having a project ADMINISTRATION platform and resources to avoid losing control of your company as it grows.
- Achieve total control of their marketing campaigns with the best free CRM market. To submit your application as current management to a new level by publishing on the internet to access it from anywhere and at any moment.
